NPR - reporters go to R.F.

- Burn Forest to make way for Farm

- Not the actual subject

- Frazled

DC → JFK → Rio → Saopalo →

Car → Toyota Hilux → Plane →
~~add?~~

Bike →

* Wasted Fuel

* Carbon offsets → too good to be true

* prelude to actual subject
can you pay away pollution

* sharol sturges - invented
carbon offset

- 1987 - exc at big companies
- building coal powered
- Required to find
a way to battle
CO₂ emissions

* ideas - CO₂ in Pepsi

CO₂ - liquid in ocean

Trees &

Paul Faith - Vet idea

52 million tree per plant
↓
lucina
lucania } grow fast

* do they have to be near?

Not

* so where? → C.A.R.E

* Pay ^{guatemalan} Farmers to grow trees

* ~~the~~ Articles = great P.R.

* carbon → tradable commodity

* so yes → it works?

* lots of issues

- Farmers didn't want
- less ~~to~~ room for food

* offset programs

look good on paper

* money goes to start
not finish

* creates ~~and~~ excuses to
ignore the issue

* need a tax

* offsets are ok, not
perfect

* affordable guilt relief

* trees are good - dah!

* summary -

yes buy offsets

No stop feeling bad
